### **DETAILED ACTION**

This office action is responsive to communication reply filed on 03/23/2004.

### **Election / Restriction**

2. This application contains claims directed to the following patentably distinct species:

Independent claims 1, 12, and their dependencies are to drawn to a computer-readable medium having stored XML file instance conforming to an XML schema for wireless or broadband modem device configuration with various network elements.

Independent claim 5 and its dependencies are drawn specifically to a computer-readable medium having stored thereon an XML file instance conforming to an XML schema for Wide Area Network (WAN) device configuration with DNS element and clone MAC address element.

Independent claim 9 and its dependencies are drawn specifically to a computer-readable medium having stored thereon an XML file instance conforming to an XML schema for Local Area Network (LAN) device configuration with LAN configuration element.

Independent claims 15 and its dependencies are to drawn to a computer-readable medium having stored XML file instance conforming to an XML schema for generating a device configuration report with manufacturer model and serial number elements.

The species are independent or distinct because each requires a separate or updated search.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed. Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species.

MPEP § 809.02(a).
